

**YOU ARE**

**WONDERFULLY MADE**

What do you think you are really good at? Think of things that you enjoy doing. Your family might like to help you think through this.

What is your family good at? You might like to draw a big picture of all the things that you are good at and all the things that your family is good at too. Did you know that God has given you lots of things that you are really good at? One of the best adventures that we can have with God is learning about who we are and how He has made us special.

Adults: Work on your own picture at the same time so you are working side-by-side. Or you might like to do a spider diagram as a family and have each person add their own things on as well as adding things for other family members. As you work side-by-side talk to each other. Ask open questions and enjoy your time together.
