

WHERE IS  
GOD?

Did you know that God is always with us? He is with us when we are sad and when we are happy. He is with us when we are at home and when we are at school. He is with us all the time. Sometimes it can be hard to remember that as we cannot see God with our eyes. When we are with our friends we can see them and so we know that they are there. Lots of Christians do things that help them feel close to God. Some pray. Some sing. Some like to paint beautiful pictures. Some read their Bible. Some like to sit in their garden or go on a walk. I wonder what you do that helps you feel close to God. Maybe you could draw a picture of it or use the playdough to help show your family where you feel close to God.

Adults: This is a really important two-way conversation to have with your children. Don't worry about the end product, it's more talking about the way that we can feel close to God. We all learn in different ways. Some of us like to sit and listen (auditory). Some like pictures (visual). Some of us learn by doing (kinesthetic). Some of us might be a mix of all three. Ask open questions and enjoy your time together.
