

My Church

Recently, church has been very different. We have not been able to meet and see our friends and sometimes we could only see our friends on a computer. How did that make you feel? Now, we can start to meet in our church building. How does that make you feel? Lots of people are looking at church and thinking how we could make it even better. What would you do to make church even better? You might like to draw a picture of your church and include all the things in it that you would like to add to make it an even better place. You could even try to build it with Lego bricks. Talk to your family. What does your church look like? What does their church look like?

Adults: Work on your own picture at the same time so you are working side-by-side. As you work side-by-side talk to each other. Ask open questions and enjoy your time together.
